

PUBLIC POLICIES

DECENTRALIZATION EFFECT ON THE ABSORPTION OF EUROPEAN STRUCTURAL FUNDS

Project Objectives

Clarification on the role of "decentralization" factor for the more efficient absorption of the European Structural Funds. Studying the effects of the decentralization policy on municipal level. Measuring the capacity of municipalities to manage the process of decentralization towards the lower level territorial units – districts, villages.

Project Implementation Tools

- Analysis of the experience of the new EU member states;
- Analysis of the decentralization policy in Bulgaria.

Project Status

In progress.
